SUMMARY

Computer Engineering student with hands-on experience in full-stack web development and AI-powered applications. Experienced in React, Node.js, REST APIs, database integration, and software engineering with a passion for building scalable, real-world solutions and continuously improving problem-solving skills.

SKILLS

Languages: JavaScript (ES6+), TypeScript, C++, Python, SQL, HTML5, CSS3

Frameworks & Libraries: React.js, Node.js, Express.js, Tailwind CSS

Databases: MongoDB, Supabase

Tools & Platforms: Git, GitHub, Docker, Linux, VS Code, Postman

Concepts: REST APIs, Authentication, CRUD Operations

PROJECTS

Room Finder Web Application — github.com/prashantmore45/RentFlow

- Built a full-stack room rental platform enabling users to search properties and owners to manage listings securely.
- Implemented user authentication, CRUD operations, and database integration for seamless property management.
- **Tech Stack:** React, Node.js, Express.js, Supabase, JavaScript, HTML, CSS.

AI Chatbot Application — github.com/prashantmore45/AI-Chatbot

- Developed an AI-powered chatbot by integrating external AI APIs for real-time conversational responses.
- Utilized asynchronous programming (Async/Await) to efficiently process API requests and enhance user experience.
- **Tech Stack:** JavaScript, APIs, Async/Await, HTML, CSS.

Job Board Application — github.com/prashantmore45/job-board-web-app

- Built a responsive job portal allowing employers to post vacancies and applicants to browse opportunities.
- Implemented responsive UI and dynamic data rendering using React, JavaScript, and modern CSS practices.
- **Tech Stack:** React, Node.js, Express.js, MongoDB, JavaScript, HTML, CSS.

EXPERIENCE

AI Research Intern

Jun 2026 – Present

Ambiguity Labs (Remote)

- Contribute to AI and software engineering research by developing, evaluating, and validating programming tasks across multiple technologies.
- Implement and debug solutions while ensuring software quality, correctness, and adherence to engineering best practices.
- Utilize Git, Docker, Linux, REST APIs, and version control workflows to support collaborative software development.
- Collaborate with reviewers to refine technical solutions while maintaining documentation quality and confidentiality standards.

EDUCATION

B.E. in Computer Engineering, Sinhgad Institute of Technology, Lonavala (SPPU)

2023 – 2027 (Expected)

Higher Secondary Certificate (XII), MSBSHSE

2023

Grade: 75.50%

Secondary School Certificate (X), MSBSHSE

2021

Grade: 89.60%

TECHNICAL HIGHLIGHTS

- Built and deployed 7+ full-stack and AI-powered applications using modern web technologies.
- Developed authentication systems, REST APIs, and database-driven applications with responsive user interfaces.
- Experienced with Git, Docker, Linux, debugging, version control, and collaborative software engineering workflows.
